Say goodbye to the hassle of hand mixing.
Focus on clients and unleash your creativity.

Smooth & Flawless Mixing

Hand mixing

Color Mixer SE

*Our internal test: Bleach of equal volume was mixed for one minute and compared.
*We recommend using the Color Mixer SE for approximately one minute per use.

Our unique 3D blades and mixing system create an **ultra-smooth, creamy color that's hard to achieve by hand mixing**—ensuring even, vibrant results every time.

Time-saving

This 3D spiral blades push the product down to mix it evenly in all directions. This means faster, more efficient mixing — saving you lots of time compared to mixing by hand.

Washable!
IPX5

*Refer to the waterproof protection rating
